Acqua e Sapone

A laundry unit with a large washbasin:
Acqua e Sapone is designed to be functional even in limited spaces. It offers maximum composition versatility, compact shapes and smart solutions to reduce volumes, and a wide range of finishes to customise any environment with a linear style that gives freedom to create original combinations.

LAUNDRY UNIT FOR WASHING MACHINE

The solutions proposed by Acqua e Sapone are characterised by laundry units for washing machines with retracting doors. This is a very functional feature that allows the doors to be opened and retracted along the cabinet sides, to advantage practicality because it eliminates all space and facilitates the washing machine loading and unloading operations.

LAUNDRY FURNITURE WITH LARGE WASHBASIN

Acqua e Sapone is a design project tailored to the evolution of contemporary lifestyles. This is why it is based on the concept of a laundry cabinet with a large washbasin, which is interpreted either integrated with the container unit as a capacious washbasin, in mineral marble like the one shown here, or as a deconstructed proposal: a bench with a large washbasin.

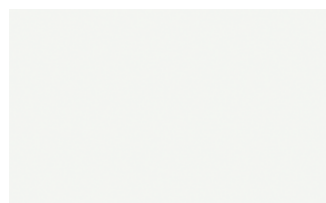

FINISHES

Personalised choices: mineral marble tops and furniture with textured finishes, with elegant visible grain, or lacquered in refined or coloured shades.
