

## Shoe cabinets

# XL

XL is a shoe cabinet for large, as well as normal, shoes, that is highly functional thanks to a design based on two main concepts: simplicity and efficiency. Simply remove an internal shelf to accommodate all types of shoes, without affecting its style in any way. Characterised by a linear and refined design, it has a handle with alternating positioning in all units to become a sophisticated decoration.

## SHOE CABINET WITH BUILT-IN HANDLE

The XL shoe cabinet has a linear metal handle, embedded in a lateral position in relation to the front of the flap doors. It defines the design with character and can be lacquered in an infinite number of finishes selected by Birex. The shoe cabinet can be made up of a structure with a single door or become a column shoe cabinet with two, three or four doors and accommodate one to three rows of shoes inside.

# FINISHES

Matt, glossy, mica, resin or metal effect lacquers. Textured finishes with wood grain, stone and more. Discover how to customise XL.
