

Wood

Wood is not only a natural and eco-sustainable raw material par excellence, but an element capable of telling a fascinating story: one of origin, tradition, and unique characteristics.

Thanks to its qualities of compactness and durability, solid Walnut has been one of the most widely used materials in the furniture and interior design sector for centuries. A precious classic, featuring warm tones and harmonious grain patterns, it lends itself to the most diverse combinations thanks to its versatility.

Metals

Metal can interpret various styles and personalities through its finishes, coordinated with the lacquered shades of the Bolzan collection. A selection that includes versatile and timeless colors, suitable for the most diverse settings, whether classic or contemporary.

The Flag family also introduces the precious allure of brass—available both as a metallic finish and as a solid material—for high-end craftsmanship. Furthermore, custom finishes can be provided upon request, to perfectly align with every taste and interior design project.
