R&D Dall'Agnese

TESTIERA: struttura interna tamburata in legno e legno di media densità certificati CARB-2, rivestita con poliuretano espanso e tessuto accoppiato.
GIROLETTO: struttura interna realizzata con pannelli di particelle legnose certificati CARB-2, imbottiti in poliuretano espanso e rivestiti con tessuto accoppiato.
PIEDINI: piede P1 plexiglass trasparente montato a 45°, piede L1 in legno massello montato a 45° nelle finiture essenza, piede M1 in metallo sp. 12 mm verniciato nero con profilo sagomato.
RIVESTIMENTO: sfoderabile in tessuto, ecopelle o pelle. Cucitura perimetrale ripresa che crea continuità tra testiera e giroletto.

HEADBOARD: internal structure made of honeycomb and CARB-2 certified medium-density wood, upholstered with polyurethane foam and bonded fabric.
BED FRAME: internal structure made of CARB-2 certified wood particle-board panels, padded with polyurethane foam and upholstered with bonded fabric.
FEET: P1 clear Plexiglass foot assembled at 45°, L1 solid wood foot assembled at 45° in the wood finishes available, black painted metal M1 foot 12 mm thick with shaped profile.
UPHOLSTERY: removable in fabric, similar leather or leather. Repeated perimetral stitching that creates continuity between the headboard and bed frame.
