

ALUDRA COFFEE TABLE

STRUTTURA

Struttura tubolare a sezione quadrata in metallo pressofuso verniciato con polveri epossidiche e dotato di gommino antiscivolo. Pannello in multistrato da 10mm in classe E1, pertanto a bassa emissione di formaldeide.

FRAME

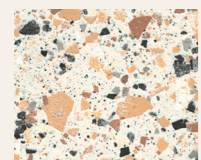

Die-cast metal square crosssection tubular frame with epoxy powder coating fitted with non-slip rubber pad. 10mm multi-layered panel in class E1, therefore with low formaldehyde emissions.

STRUCTURE

Structure tubulaire à section carrée en métal moulé sous pression vernie aux poudres époxydiques et dotée de gomme antidérapante. Panneau en multicouches de 10 mm classe E1, pour autant à basse émission de formaldéhyde.

KORPUS

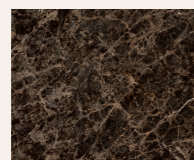

Vierkantröhr aus Metalldruckguss, mit Epoxidpulver-Beschichtung und rutschfestem Gummi versehen. 10 mm dicke Sperrholzplatte in Klasse E1, also mit geringer Formaldehydabgabe.
