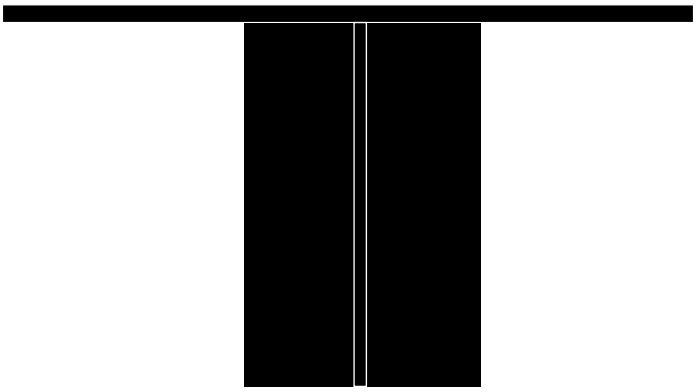
ALBIO

by Skrivo



The harmony of the Albio table conceals an imperial charm: this first version is crafted in Travertine marble, a material favoured by the Romans to build their most celebrated monuments. The top is rounded irregularly on every side and it rests on a sleek, faceted triangular base. The softness of its organic top is matched by the solid slab of its base, harmoniously combined in a single sculptural body. Finishes are available in full Travertine, wood or lacquer, as a dining table or in a smaller coffee table version, which can become modular if needed.
