

HONEY Quinti®

High backrest managerial and operative armchair by Quinti collection

The armchair exceeds the minimum requirements of DL 626/94, and DL.81. It complies with EN1335B and is 11M certified.

Base

1. Black polypropylene base "LOOP". [d. 600]
2. Polished aluminum base "LOOP". [d. 680]
3. White polypropylene base "TREND". [d. 680]

Castors & feet

Double tread, with 65mm standard diameter, or rubberized castors. Both can be self-braking or move unobstructedly (standard version).

The polyamide legs are interchangeable to the castors with the same pivot of base assembling.

Elevation

All the Quinti gas columns comply with the DIN 4550 norm and exceed the 4° level.

Mechanics

Honey is created with Synchron M12 mechanism, which is lockable in 5 positions with rigidity adjuster.

Armrests

The chair is available both with or without armrests. They are available also in the adjustment in height version, 3D adjustable with soft pad, or fixed.

Seat & backrest

Seat. It is created with high-resistance polypropylene and 2 steel bars; properly stuffed with high-density polyurethane and then upholstered with all the fabrics of Quinti Colours System.

Backrest. It has a black mesh structure and is provided with a 3D lumbar support which is adjustable in height and depth. The mesh is available in Goal or Gabriel version.

Stuffing

The chairs are made of indeformable high-density expanded polyurethane. Thickness 50mm.

USAGE AND MAINTENANCE

In order to have an optimal maintenance of the products and to preserve the characteristics of the materials by which they are made, it is recommended the following course of action.

FABRICS

Cleaning: check the dedicated selection written on the color Swatch card.

Usage: it is recommended to pay careful attention to the fabrics as they can be cut or ripped easily.

WOODS

Cleaning: clean using a soft cloth, soaked in tepid water. Dry always after the cleaning. Remove immediately any liquid substances or other residue in order to prevent the absorption.

Usage: wooden surfaces, being a natural material, might be subjected to color alterations with sun exposure and use over time. It is reminded that wooden surfaces cannot endure direct heat sources.

METALS

Cleaning: both steel and aluminum surfaces, and the painted ones, have to be cleaned using a soft cloth soaked in tepid water. For the most persistent stains it is possible to dilute mild soap with water moderately. Dry always after the cleaning, using a soft cloth or deer-hide. Do not use cleaning products for steel, chlorine, bleach or other strong products. It is not recommended to use abrasive, scourers, which can scratch the metal surfaces.

Usage: pay attention to the food stains as coffee, coke, fruit juices that can make indelible marks on the surfaces.

WARRANTY

QUINTI guarantees the products will maintain their properties for 6 years from delivery, except normal usury and provided that they will be used according to the guidelines given. QUINTI will replace, free of charge, any product found non-compliant with this warranty, without incurring any other liability of sort. Components, external accessories or materials supplied by the buyer and applied to the products in order to customize them will not be supported by the guarantee. For an optimal maintenance of the products and to keep unchanged the characteristics of the materials with which they are made, some simple attentions are necessary.
