MATERIALI

Tutti i materiali da intreccio usati nelle collezioni Roberti sono resistenti agli agenti atmosferici, sopportano agevolmente sbalzi di temperatura, hanno lunga durata e sono di facile manutenzione

FINITURE

Tutte le finiture sono eseguite con vernici a polveri. Questo tipo di finitura garantisce un'ottima resistenza alla corrosione in uso esterno ed allo stesso tempo un maggior rispetto per la tutela dell'ambiente: non vengono usati solventi volatili inquinanti per l'atmosfera (cosa che invece accade nel caso di vernici liquide)
